Amish-Made Furniture

Did you know that we have the ability to order custom furniture? Because much of our furniture is made by Amish folks from central Michigan, we are able to get pieces made to meet your specific needs. New Hickory Furniture, LLC was founded in 1992 with a concentration on hickory rocking chairs. Since then, the business has expanded to include kitchen, bedroom, and living room items made from Hickory and Aspen. Select products are also available in White Cedar, Red Cedar, and Pine. Mel, the company's founder, has joined with another furniture builder in Shawano to offer this larger variety of items. All products are held to a very high standard to maintain a quality unmatched by other manufacturers.

Nearly all items can be made with customized dimensions and features (glass doors on a hutch, adding drawers, etc). In the past year we have ordered bunk beds, day beds, bathroom shelves, book shelves, gun cabinets, entertainment centers, and a number of custom-sized end tables and beds. In fact, we encourage you to get exactly what you want, so if you need something a few inches shorter, taller, or wider, please let us know! Custom orders require a quick phone call to New Hickory for a quote, which is typically received within the next business day. Furniture production and delivery time ranges from 3-8 weeks. We take pride in offering our best prices on furniture all year round. Below you will find pictures of some of our custom pieces.
