New Products Arriving Soon!

As many of you may have heard Ron and Chris at the Crazy Loon have decided to retire. Their store was definitely a favorite stop for us. Not only did they have some great products, but they provided a great service to our community, and headed up many events and projects. They have ensured us they will continue to be present in our community, and we are thankful for that. As for the product side, we have decided to make room for a few our favorites from their store into Cabin Creations! First up is KAVU. KAVU creates outdoor wear, stylish bags, wallets and other accessories. The brand was started in 1993 in Seattle and is now a world-wide company. KAVU also an aviation acronym for “clear above visibility unlimited,” when there isn’t a cloud in the sky and you can see to the horizon. That is the guiding philosophy of the KAVU brand. It means treating every day like it is special and getting out there and doing whatever invigorates you and makes you smile. We are very excited to introduce their products here! We have a few more new brands on the way, but it will take a little bit of rearranging to make room for them. We’ll be sharing more with you as new products arrive. Stay tuned for more fun!

New Product – AirFort

We are excited to introduce this fun new product for kids – AirFort. It's the quickest, safest, mess-free fort for your home or cabin! AirFort inflates in less than 30 seconds using a simple 20" box fan. When the kids are ready to play, simply attach your AirFort to the fan and you're ready to go! And the best part? When it's time to clean up and put away, all you have to do is stuff into its own matching carrying bag (weighing only 24 oz) so it's ready for the next day of fun! We currently have it in two colors – Starry Night and Creamsicle Orange. Get a start on your holiday shopping with this neat gift idea.
