Music In The Park Series

LIVE MUSIC THURSDAY EVENINGS

If you haven't had the chance to check out one of the free Music in the Park events on Thursday nights in Phillips yet, you need to add it to your summer bucket list! The concerts are at Elk Lake Park, right along the lakeshore off of Hwy 13. Bring a lawn chair or blanket and enjoy live music from a variety of artists throughout the summer. You are welcome to back a cooler with food and beverages, or check out some of the food and beverage options at the park as well. There is typically at least one food truck and then local fundraiser organizations as well. The music is typically from 6-8pm, with some special groups playing a bit longer. You can even listen from a boat or kayak on the lake if you'd like! There is a bucket that will get passed at least once throughout the night, and your donations help bring in more music in the future.

Besides music during the event, the pavilion is open for use of restrooms, the splash pad is running, and the playground, basketball courts and walking trail are sure to be filled too! Just a note - if you are looking to go out on the boat landing that evening, we suggest you find use a different location as parking gets quite congested during the concerts. Check out Price County Music in the Park Facebook Page for this year's line up and for more information!

Murphy's Natural Bug Products

ALL NATURAL AND MADE IN THE USA

A seasonal best-selling line at Cabin Creations - Murphy's Naturals will keep the bugs at bay, or make those itchy spots go away! Named after their dog, Murphy, these products are plant-based way to repel bugs while spending time outdoors with your four-legged friends (and two-legged too!) When bug products have DEET, the chemicals smell bad, they leave your skin feeling sticky and dirty. (It's a solvent powerful enough to melt plastic—do you really want it on your skin?)

That's why Murphy's formulated powerful plant-based blends that other natural manufacturers have overlooked...or skimped on. The spray is 30% lemon eucalyptus oil—the only plant-based mosquito repellent recommended by the CDC. And the candles and incense have blends of citronella, lemongrass, rosemary, and peppermint to shield you from the pesky biters. Have a bite? The bite relief balm is a definite fan favorite at Cabin Creations! Looking for easy application and small enough to tote with you? Check out the repellent balm tins and sticks. Not only do these products work, but they are made in the USA by a veteran-owned, certified B-corporation business that donates over 2% revenue, plus over \$75,000 of products!
